

June 2019: Temporary change to accessing the Victoria Land Title Vault

In June 2019, tambour (vertical sliding) doors will be installed on shelving units in the Victoria Land Title Vault to help protect the LTSA historic records collection in the event of a fire or water incident.

For safety reasons, access to land title records in the vault will be modified while door installation is underway between June 10 – July 5, 2019.

During door installation, limited access to land title records will occur every other day, with full access available the following day. On days with limited access, restricted areas of the vault (including, at times, microfilm records) will be indicated with yellow tape. Work will also occur after office hours to minimize disruption.

The anticipated dates of limited access to the Victoria vault are:

- Monday, 10 June
- Wednesday, 12 June
- Friday, 14 June
- Tuesday, 18 June
- Thursday, 20 June
- Monday, 24 June
- Wednesday, 26 June
- Friday, 28 June
- Wednesday, July 3
- Friday, July 5

Please note: There may be limited access to some or all microfilm and readers on June 10th.
